PUBLISHED
July 2024

The new “2024 China Ophthalmic Market Report” features expanded analysis of regulations and a snapshot of the Chinese government’s Volume-Based Procurement strategies designed to reduce prices and improve access to care. All product category forecasts have been updated through 2029 and examine revenue in both yuan and dollars.

The new report provides updates on Chinese companies and private hospital chains, thoroughly examines ophthalmic product candidates at Chinese pharmaceutical companies, and provides an updated listing of companies selling and distributing ophthalmic products in China.

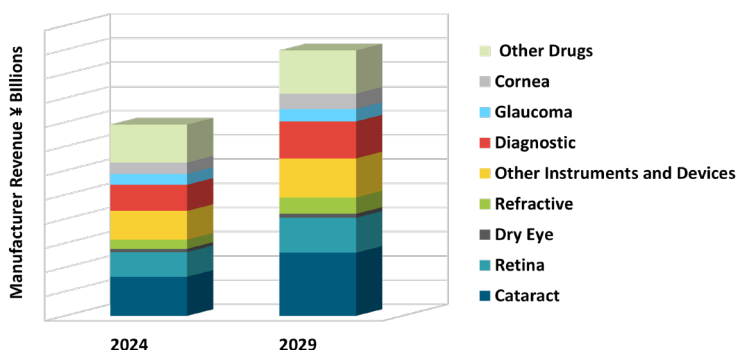

Market Scope

2024 China Ophthalmic Market Report

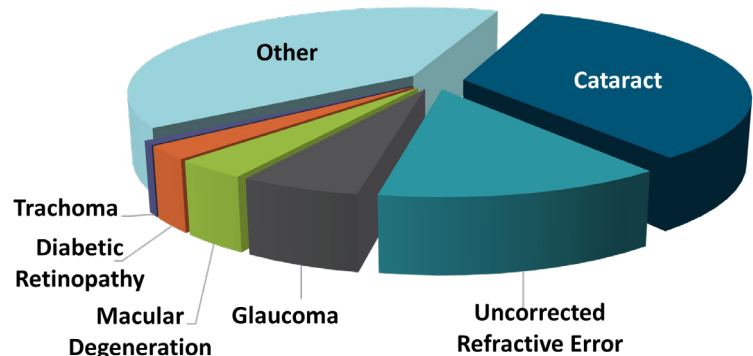

The “2024 China Ophthalmic Market Report” covers all aspects of China’s ophthalmic market, providing a comprehensive overview of the Chinese population and economic conditions, discussing key strategic issues, studying disease prevalence, and analyzing surgical and therapeutic approaches, including both commercialized and pipeline products. The report analyzes unit demand and revenue, and forecasts future performance over the next five years. Competitor share is analyzed by product category and 32 competitors are profiled, with discussion of their products, strategic market position, background, and outlook. The following information is discussed in the report:

- Overview of China, including an analysis of population demographics, the Chinese economy, and China’s health care infrastructure.
- Disease prevalence data.
- Ophthalmologists, surgeons, optometrists, hospitals, and clinics.
- Surgical treatments.
- Surgical instrument and technology usage.
- Ophthalmic pharmaceutical treatment regimens.
- Five-year forecasts for market performance.
- List of companies with ophthalmic products in China.
