December 2024

The “2024 Dry Eye Products Market Report” now covers more device and pharmaceutical treatment options, including generic, prescription, and over-the-counter. The report features new proprietary survey data from the United States and Western Europe, updated disease modeling, expanded risk factor analysis, and more in-depth information on the markets in India and our Other Wealthy Nations analytical category.

The report now forecasts service and handpiece revenue for procedures, when relevant. It profiles 25 market competitors and covers over 100 more companies that participate in this market.

## Market Scope

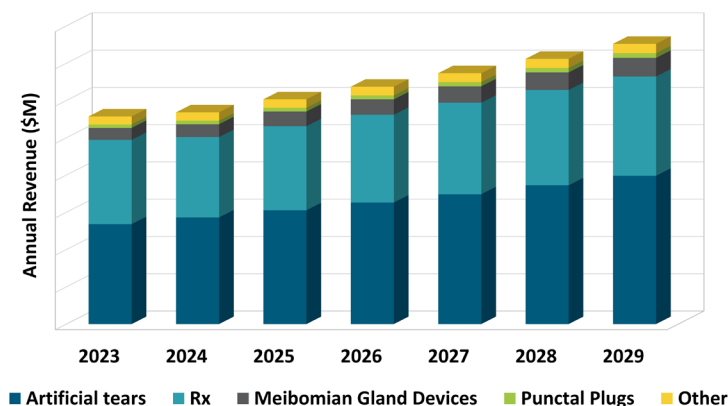

# 2024 Dry Eye Products Market Report

Market Scope’s “2024 Dry Eye Products Market Report” analyzes the current marketplace and forecasts market performance through 2029. The report examines dry eye syndrome’s etiology, diagnosis, and treatment and provides in-depth coverage on the prevalence of dry eye, prescription therapeutics, over-the-counter lubricants, thermal expression, IPL, punctum plugs, and additional dry eye procedures and products.

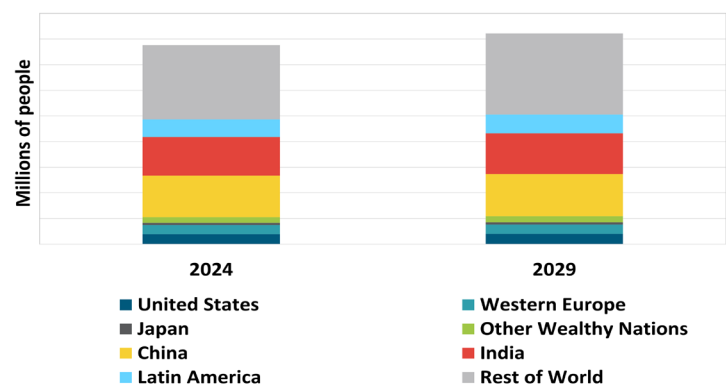

Product demand is forecast in units and dollars, and market shares are analyzed by product category. Twenty-five market competitors are profiled, with discussion of their products, strategic market position, background, and outlook. The following information is included:

- Overview of dry eye disease
- Diagnosis and treatment of dry eye
- A global view of dry eye care providers
- Current estimates and five-year forecasts for dry eye in our eight analytic categories
- Dry eye Rx products in the marketplace
- Instruments used for manual expression of meibomian glands
- Devices and procedures used to treat dry eye
- OTC products for dry eye
- Investigational agents in the development pipeline
- Profiles of companies developing, making, and marketing dry eye products

### Global Revenue for Dry Eye Products by Segment

### Global Population with Dry Eye Signs & Symptoms By Region

Market Scope uses eight categories defined by region and economics in our analysis: the United States, Western Europe, Japan, Other Wealthy Nations (OWN), China, India, Latin America, and Rest of World (ROW).

Our OWN category is made up of a mix of nations with higher per-capita gross domestic products—Canada, South Korea, and the United Arab Emirates are examples. The ROW category is a catch-all category for nations not included elsewhere. ROW nations have diverse economies and a significant range of development levels. Namibia, Indonesia, Turkey, and Russia are examples.
